PROFESSIONAL SUMMARY

I am a software developer with 3.5+ years of experience building web, mobile, and cloud applications for the US, Canadian & Caribbean Markets. Experienced in Python, PHP, Flutter, GCP, REST APIs, UI/UX design, and technical leadership. Delivered solutions serving tens of thousands of users and generating measurable business growth for international clients.

KEY PROJECTS

Members Health Canada (Website Redesign) **|** www.membershealth.ca

* Led a full stack redesign utilizing GCP, PHP, Wordpress, Air Table and more delivering this project in under 3 months
* Enabled the company to secure their first B2B customer directly increasing revenue to over $80,000 CAD per month in sales & subscriptions

ELDT Nation (Website Redesign) **|** www.eldtnation.com

* Developed in under 2 months
* Increased lead to customer conversion rate by 1.5x generating an increase in sales of $20,000 USD within the first month of launch.

EXPERIENCE *3 Years & 6 Months in Software Development (NOC 21232)*

Members Health **| Full-stack & Mobile Software Engineer** (3 Months)
18 Kensington Road, Suite 201, Brampton, Ontario, Canada | Contract: May 2024 - July 2024

* Developed and maintained web, mobile, and backend systems supporting a healthcare platform connecting 200,000+ users to medical professionals.
* Built and updated features across web and mobile applications, improving system usability and performance.
* Collaborated with cross-functional teams to deploy updates across production systems in English and French (Québécois) environments.
* Supported cloud-based backend infrastructure and API integration.

Scarlet Creative Software **| Junior Front-end Developer → Full-stack Developer → Senior Software Developer** (3 Years & 3 Month)
2 Union Hall Settlement, Trinidad, The Caribbean *(Remote) | Full-Time: October 2022 - 2026*

Progressed from Junior Front-End Developer to Full-Stack Developer and Senior Developer, contributing to client and internal software products used by 10,000+ users internationally.

Software Development & Delivery:
* Built and deployed full-stack web applications, mobile apps, CMS platforms, REST APIs, and automation tools for external clients and internal systems.
* Developed across iOS, Android, Web, Windows, and macOS environments using modern full-stack technologies.
* Designed and implemented UI/UX interfaces and translated them into production-ready applications.
* Contributed to AI/ML-enabled software features and backend services.

Leadership & Operations:
* Led project planning, task delegation, and sprint execution across development teams.
* Conducted client meetings, requirement gathering, and progress reporting.
* Supported hiring, onboarding, and technical training of new developers.
* Coordinated delivery timelines and cross-team communication.
